

Certified to
NSF/ANSI 61

WHERE QUALITY COMES FIRST

Stainless steel side connection allows for quicker, less expensive installation

hydro-plus well tanks

Zilmet has over 50 years of experience in manufacturing high quality diaphragm well tanks

- Has produced over 7.5 million tanks and over 1 million heat exchangers
- Fully vertically integrated, designing and manufacturing all diaphragms internally

Zilmet has created a compact design with a seamless diaphragm that never stretches or creases. There are no bubbles or corners to trap sediment, inhibiting bacterial growth

Technical features

- Seamless NSF 61 certified low permeability butyl diaphragm never creases and channels water directly to outlet, thus eliminating bacterial growth pockets
- MIG welding eliminates interior rough spots and sharp edges
- Low profile tank design with full membrane depth eliminates stretching of diaphragm, providing increased life cycle
- All diaphragms made by Zilmet specifically for each tank's dimensions
- Powder coated finish for a longer lasting, more durable finish
- 5 year warranty on all models
- The Zilmet side connection advantages:
 - Easier and quicker installation
 - Less expensive installation
 - Less vulnerable to corrosion at connector

material description

description	material
shell	carbon steel*
connection	stainless steel*
fixed membrane	butyl**
color	almond

* internally coated with powder for potable water applications

** for potable water applications

operating conditions

max. operating pressure	150 psi
operating temperature	210 °F
factory precharge	38 psi

■ technical and dimensional data
